Product Information 

Machine Stands 

MADE IN BRITAIN 

Product Overview & Key Features

The Clenaware Machine Stand is made of durable, robust, stainless steel and is the ideal companion for your warewashing equipment.

The Machine Stand has been designed to adapt the warewashing process to a safe, correct working height for staff using the machine.

Our Machine Stands have been designed and manufactured to work alongside our range of glasswashers and dishwashers; however, as the Machines Stands are available in various sizes and functions; they will suit most warewashing machines.

Durable & Robust

Clenaware Machine Stands are fabricated from Stainless Steel, which makes the stands safe and sturdy enough to take the weight of your warewashing machine. This Machine Stand not only looks modern but is also able to handle the knocks and bumps of your busy bar or kitchen area. The top tray supplied with each stand, are of a high-quality finish made from durable plastic.

Static Stand

Static Machine Stands can slide easily into spare space in the bar or kitchen area. The stand ensures your machine is at a safe, correct working height for your staff. Static Machine Stands have adjustable feet, which ensures the machine is level, even on an uneven floor space.

Mobile Stand

Mobile Machine Stands are designed for easy movement. The Mobile Stand comes with four castors, two of which have brakes for safety and can be easily manoeuvred for access to service or to clean around the machine. The stand ensures your machine is at a safe, correct working height for your staff.

Versatile

The machine stand comes in two different sizes, to accommodate the many different types of warewasher available. The smallest unit being a 45 size up to a 50 sized unit.
