# Teca Cioccolato

L'elegante trasparenza della Teca Cioccolato permette un'ottima visibilità della pralineria e di conseguenza una migliore esposizione e vendita del prodotto. Il microclima a temperatura controllata ed a bassa umidità consente di preservare la qualità estetica ed organolettica del prodotto nel tempo.

Pur avendo una capacità espositiva molto superiore ad un tradizionale banco pralineria, la Teca Cioccolato può essere inserita anche in spazi molto ridotti.

*The elegant transparency of Teca Chocolate gives your pralines clear visibility and improve display and sales of your product.*

*The temperature-controlled, low-humidity internal climate preserves visual and sensory qualities of your products over time.*

*Despite having a higher display surface than traditional praline countertops, Teca Chocolate is also suited for installations with limited space.*

*L'élégante transparence de Teca Chocolat permet une excellente visibilité des pralines et par conséquent une meilleure exposition et vente du produit.*

*Le microclimat à température contrôlée et à faible humidité permet de préserver la qualité esthétique et organoleptique du produit dans le temps.*

*Malgré une capacité d'exposition nettement supérieure à une vitrine de chocolaterie traditionnelle, la vitrine Chocolat peut aussi être installée dans des lieux très réduits.*
