

Teca B

Design Reg. n. TO 2009/31

Modello ad incasso della collezione Teca.
L'installazione ad incasso conferisce
un look "sartoriale" e rappresenta
una valida alternativa alla cantina free
standing tradizionale.

Built-in model from the Teca collection.
The built-in installation gives it a "seamless"
look that is a viable alternative to traditional
freestanding cellars.

Modèle encastrable de la collection Teca.
L'installation encastrée crée un effet « sur
mesure » et représente une alternative valide
à la cave traditionnelle.

Teca B

Modello con cornice lineare nera ed
allestimento interno personalizzabile.
L'installazione ad incasso e la profondità
ridotta consentono di inserire la Teca B
anche in sale da pranzo, soggiorni e cucine.

Model with black linear frame and custom
internal fitting.
Built-in installation and reduced depth make
Teca B suitable even for dining rooms, living
rooms and kitchens.

Modèle avec cadre linéaire noir et
aménagement intérieur personnalisable.
L'installation encastrée et la faible profondeur
donnent la possibilité d'insérer la Teca B dans
les salles à manger, salons et cuisines.

Teca B

Nero assoluto. A richiesta è possibile personalizzare sia la parte interna che esterna in colore nero.

Una soluzione estetica che dà forza ed eleganza.

Disponibile per le collezioni Teca e Mod.

Total black. It is possible to request custom internal and external parts in black finish.

An aesthetic solution that suggests strength and elegance.

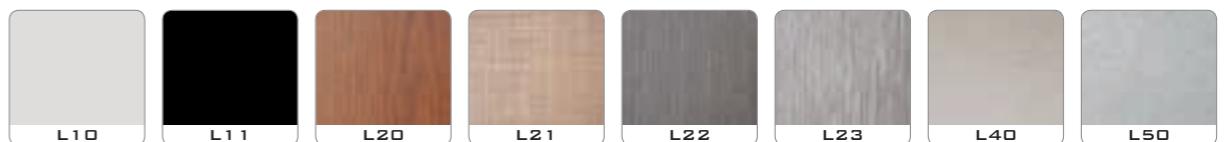

Available for the Teca and Mod collections.

Noir absolu. Sur demande, on a la possibilité de personnaliser soit l'intérieur soit extérieur en noir.

Une solution esthétique qui donne caractère et élégance.

Disponible pour les collections Teca et Mod.

Teca B

Versione ad incasso della vetrina Teca.

La Teca B è semplice da installare in nicchie o passaggi inutilizzati.

La cornice è applicata con sistema ad incastro per cui facilmente sostituibile per qualsiasi esigenza tecnica o commerciale.

La versione a profondità ridotta (H) può essere inserita nei soggiorni Wine Living®.

Built-in version of the Teca cabinet.

Teca B is easy to install in recesses or unused spaces.

The frame is mounted with a snap-on system and therefore easily replaced for any technical or sales need.

The reduced depth version (H) may be included in Wine Living® furniture.

Version encastrée de la vitrine Teca.

Teca B est facile à installer dans des niches ou des passages inutilisés.

Le cadre est appliquée avec un système d'emboiture et peut être facilement remplacé pour n'importe quel besoin technique ou commercial.

La version à profondeur réduite (H) peut être insérée dans les séjours Wine Living®.

Struttura in alluminio

Cornice in legno massello

Porte scorrevoli con vetrocamera - protezione UV

Serratura con chiave

Fianchi e top in pannelli di schiuma poliuretanica

Interni in alluminio

Illuminazione a LED

Compressore ad inverter

Refrigerazione statica e ventilata

Termoregolatore digitale

Sbrinamento automatico ed evaporazione automatica della condensa

Sistema di antivibravione

Guida riscaldata

Filtro a carboni attivi ricaricabile

Di serie

Filtro a carboni attivi

Filtro a carboni attivi ricaricabile. È possibile estrarre il filtro dalla vetrina e sostituirlo i carboni in pochi minuti. Permette un naturale ricircolo di aria nelle vetrine vino. È consigliato per le vetrine utilizzate per conservazione che non vengono aperte spesso.

Termoregolatore digitale

Il termoregolatore può essere impostato a temperature diverse con o senza ventilazione diretta dall'utilizzatore. È possibile utilizzare la vetrina con unica temperatura oppure impostare la refrigerazione non ventilata con la quale si possono ottenere diverse temperature all'interno della stessa vetrina per mantenere a temperatura di servizio vino bianchi, rossi e spumanti.

Activated carbon filter

Rechargeable activated carbon filter. It is possible to remove the filter from the cabinet and replace the coals in few minutes. It allows a natural circulation of air in the wine showcase. This option is suggested for the showcases used for conservation that are not frequently opened.

Digital temperature controller

The temperature controller can be set on different temperatures, with or without ventilation, by the user. A single temperature can be picked or, by turning off the ventilation, different temperatures can be achieved inside the same cabinet to keep white, red or sparkling wines at service temperature.

Filtre à charbon actif

Filtre à charbon actif rechargeable. Il est possible d'enlever le filtre de la vitrine et de remplacer les charbons en quelques minutes. Il permet une circulation naturelle de l'air dans les vitrines à vins. Il est recommandé pour les vitrines utilisées pour la conservation qui ne sont pas fréquemment ouvertes.

Thermorégulateur numérique

Le thermorégulateur peut être réglé à différentes températures avec ou sans ventilation interne directement par l'utilisateur. Il est possible d'utiliser la vitrine avec une seule température ou de régler la réfrigération non ventilée avec laquelle vous pouvez obtenir des températures différentes à l'intérieur de la même vitrine pour avoir ensemble le vin blanc, rouge et mousseux à la température de service.

Optional

OPT-RGB

LED colorati RGB

Installazione impianto led colorati RGB in sostituzione dello standard a led bianchi. Telecomando per gestione colori, programmazione effetti ed intensità luminosa. Il colore bianco del led RGB è un bianco freddo (6000 - 6500°K). Nelle vetrine salumeria e gastronomia si consiglia di lasciare il led bianco naturale standard.

RGB color LED lighting

Installation of colored RGB LED instead of the standard with white LED. Remote control allows to choose various colors, sets lighting effects and the dimmer. The white color of the RGB is a cold white (6000 - 6500°K). It is suggested not to use RGB LED for gastronomy and delicatessen cabinets but use the standard white LED.

Éclairage LED couleur RGB

Installation de LED coloré RGB à la place des LED blancs standard. Télécommande pour la gestion des couleurs, effets de programmation et intensité lumineuse. La couleur blanche de la LED RGB est un blanc froid (6000 - 6500 °K). Dans les modules pour charcuterie et gastronomie on conseille d'employer les LED blanc naturel standard.

Porte colore nero

Verniciatura a polveri epossidiche colore Nero della parte esterna. MOD (profilo porta, telaio di battuta delle porte, maniglie) TECA (profilo porta maniglie).

Door frame in black color

Black epoxy powder painting of the external part. MOD (door profile, frame, handles) TECA (door profile, handle).

Portes en couleur noir

Laquage de l'extérieur avec vernis à poudre époxy noir. MOD (profils de porte, châssis de porte, poignées) TECA (profils, portes et poignées).

OPT-PCN

Verniciatura Interno nero

Verniciatura di tutte le parti interne in alluminio con finitura a polveri colore nero opaco (fianchi, pannelli centrali, tondini, montanti, schiena, base e top). A seconda dei modelli, alcuni particolari tipo viti o reggi mensola vengono mantenuti in finitura inox.

Black interior coating

All internal aluminum parts are finished with matte black powder coating (sides, central panels, rods, strut, back, base and top). Depending on model, some details i.e. screw caps or shelf supports remain in stainless steel finish.

Intérieur laqué en noir

Toutes les pièces intérieures en aluminium sont laquées en noir mat (côtés, panneaux centraux, tondini, strut, back, base et dessus). Selon le modèle, certains détails comme vis ou équerres sont conservés en acier inoxydable.

OPT-VIN

Vetro porta brunito

Installazione di vetro brunito sulle porte (trasmissione luminosa 35%). Consente di ottenere un miglioramento del 10 % circa nella protezione ai raggi UV rispetto a quanto già garantito con il vetro standard.

Door with burnished glass

Installation of burnished glass on the doors (35% light transmission). It allows to obtain an improvement of about 10% in the protection against UV rays compared to the rate already guaranteed with standard glass.

Porte avec verre foncé

Installation des portes avec verre foncé (transmission de la lumière 35%). Il permet d'obtenir une amélioration de environ 10% de la protection contre les rayons UV par rapport à ce qui est déjà garanti avec les vitres standard.

OPT-VPB

OPTIONAL TECA - MOD *14 (P. mm 510 - 530)

Le vetrine *14 della serie Teca e Mod vengono fornite senza allestimenti. È possibile personalizzare l'allestimento interno scegliendo uno o più optional tra quelli di seguito elencati.

The units *14 of the Teca and Mod series are supplied without internal fittings. You can customize the interior by choosing one or more of the following options.

Les modules *14 de la série Teca et Mod sont fournis sans accessoires. Vous pouvez personnaliser l'intérieur en choisissant une ou plusieurs options parmi celles indiquées ci-dessous.

Optional Teca - Mod 14 (P. mm 510 - 530)

OPT-14T-BF
OPT-14MP-BF

Bottiglie frontali

Piano in plexiglas con staffette di fissaggio. Il sistema è regolabile in altezza con passo di 5 cm in funzione delle bottiglie inserite. Ogni piano può contenere 4 bottiglie.

Front neck bottles

Perspex shelf with mounting brackets. The system is adjustable in height, shelves can be fitted every 5 cm. depending on how many and what kind of bottles you want to insert. Each shelf can hold 4 bottles.

OPT-14-B0

Bottiglie orizzontali

Sistema composto da n. 8 tondini in alluminio, costruiti in 2 pezzi. Sistema regolabile in altezza ogni 10 cm. Con ogni kit è possibile esporre 8 bottiglie, 4 per ciascun vano.

Horizontal bottles

System made of n. 8 aluminum rods, realized in 2 pieces. System adjustable in height every 10 cm. With each kit you can expose bottles 8, 4 for each compartment.

OPT-14-T-BI
OPT-14MP-BI

Bottiglie inclinate

Struttura realizzata con laterali in plexiglas e tondini in alluminio. Questa struttura può essere posizionata a diverse altezze con interasse minimo di 20 cm. Può contenere fino 7 bottiglie classiche da 0.75 l oppure 4 bottiglie Magnum.

Inclined bottles

Structure composed of Perspex sides and aluminum rods. This structure can be positioned at different heights with a minimum of 20 cm spacing. It can hold 7 standard 0.75 l bottles or 4 Magnum.

OPT-14-T-PR
OPT-14MP-PR

Piano regolabile

Piano regolabile in vetro temprato con reggi mensole. Il piano è regolabile con passo 5 cm. È molto utile per il posizionamento di bottiglie in verticale, bottiglie e decanter.

Adjustable shelf

Tempered glass adjustable shelf with supports. The shelf can be adjusted in steps of 5 cm. It is very useful for positioning vertically bottles, glasses and decanters.

Optional Teca - Mod 14 (P. mm 350 - 362)

OPT-14H-BO

Bottiglie orizzontali

Sistema composto da n. 4 tondini in alluminio, costruiti in 2 pezzi. Sistema regolabile in altezza ogni 10 cm. Con ogni kit è possibile esporre 4 bottiglie, 2 per ciascun vano.

Horizontal bottles

System made of n. 4 aluminum rods, realized in 2 pieces. System adjustable in height every 10 cm. With each kit you can expose bottles 4, 2 for each compartment.

OPT-14TH-BI
OPT-14MPH-BI

Bottiglie inclinate

Piano in plexiglass termoformato. Questo accessorio può essere posizionato a diverse altezze e può contenere 4 bottiglie classiche da 0.75 cl.

Tilted bottles

Thermoformed plexiglass ledge. This component can be positioned at different heights and can contain 4 classic 0.75 l bottles.

OPT-14TH-PR
OPT-14MPH-PR

Piano regolabile

Piano regolabile in vetro temprato con reggi mensole. Il piano è regolabile con passo 5 cm. È molto utile per il posizionamento di bottiglie in verticale e bicchieri.

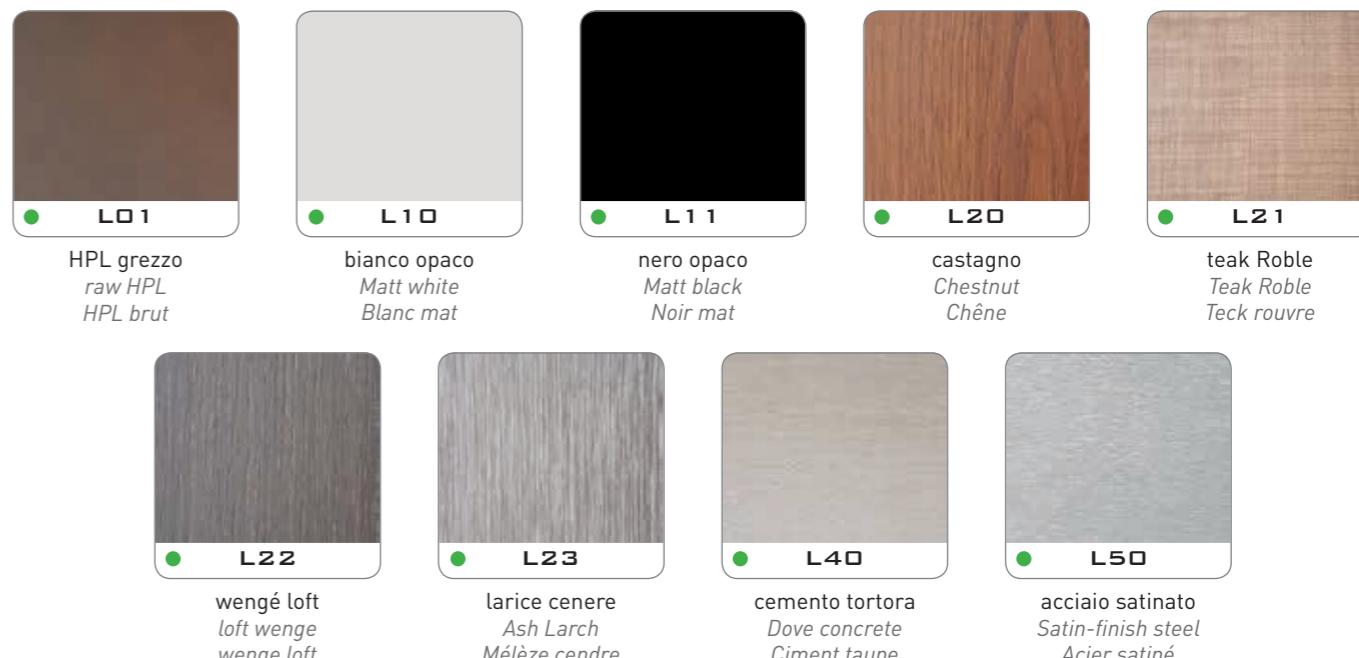

Adjustable shelf

Tempered glass adjustable shelf with supports. The shelf can be adjusted in steps of 5 cm. It is very useful for positioning vertically bottles and glasses.
